

# Lab Assignment

## In-Class Exercise Demo

- For today's assignment, you will practice creating a catalog page using VUE.
- Use your knowledge from all the lessons and exercises you have learned throughout this week.
- You will start VUE scripts from scratch.
- You will only need to use VUE and SASS for this assignment. No npm installation required.
- So therefore make sure you have sass watch activated in your bash terminal. Again, the command is: **sass -watch scss:css**
- Next, proceed to download the wk5-day3-assignment.zip from GAP Week 5 Day 3.
- After unzipped, move it to the Westcliff folder on your desktop.

## In-Class Exercise Demo

- Launch VS Code and browse to the assignment folder.
- In VS Code, notice that the basic set up is already done for you:

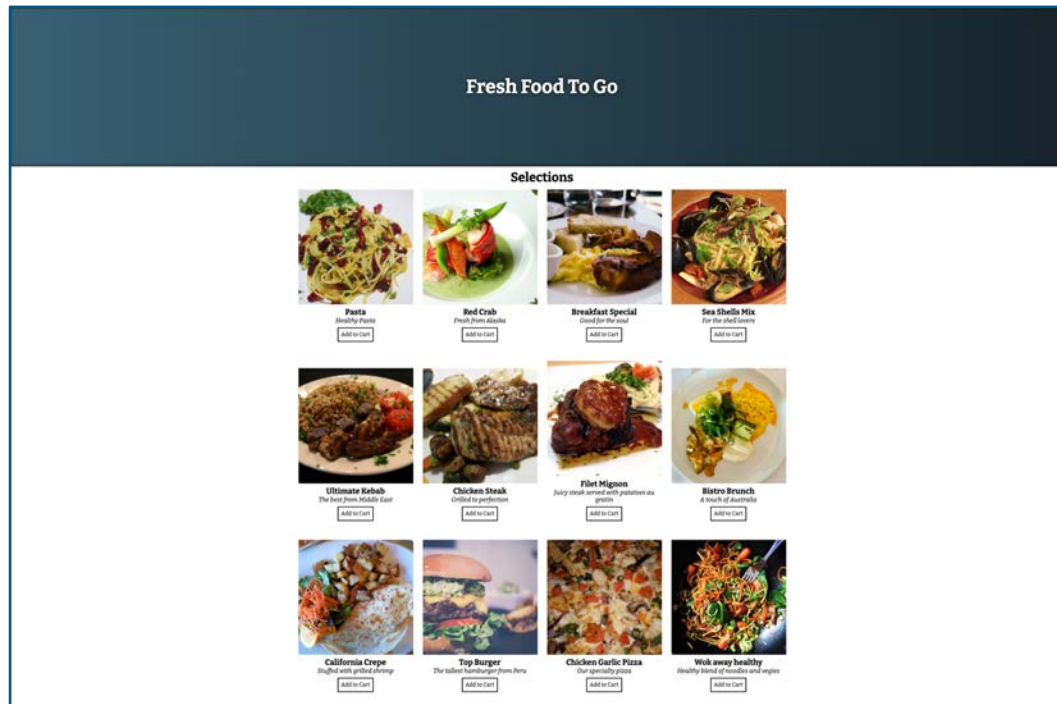

```
> css  
> scss  
<> index.html  
≡ urls.txt
```

- The **index.html** is your output view.
- The **urls.txt** file contain links to 12 images.

# In-Class Exercise Demo

- Here's a preview of the [index.html](#) page after it's complete:

## NOTE

A PDF version of this preview is also included in this assignment folder.

# In-Class Exercise Demo

- **DUE:**  
At end of this lab session.
- **Submission:**  
Post Github link on GAP Week 5 Day 3
